

## Fly Neighbourly Commitment Helicopter Operations

As an operator of Helicopter Operations at the Hervey Bay Airport Fraser Coast, ..... is committed to undertaking operations in a Fly Neighbourly manner. We commit to undertake our operations in a manner which is considerate to local residents whilst maintaining safe operation of the helicopter. This Fly Neighbourly arrangement does not override any CASA or weather requirements or regulations.

We will do so by endeavoring to adhere to the following principles:

- All Pilots to plan all flights to minimise activity over built up areas (Instead, fly over water or rural areas)
- Avoid flying low over populated areas
- Avoid tight manoeuvres and turns while operating helicopters over populated areas
- Keep the volume of touch and go and auto rotation training on the main runway 11/29 to a minimum
- No training to occur North of the main runway 11/29 – all operations to be kept South of the flight strip wherever possible
- Ensure that environmental and noise issues are included in pilot inductions
- Respond to community enquiries about noise in a co-operative manner
